You don't often get email from mnmhresearch@health.qld.gov.au. [Learn why this is important](#)
Hello Llewellyn,

I am reaching out on behalf of the Metro North Mental Health (MNMH) Research Team as we are in the process of curating content for the MNMH Annual Research Review 2025. We would like to feature the following article, developed in collaboration with Ellie Black:

Hayes, V., Mills, L., Byron, G., Stubley, C., Black, E., Trevitt, B. T., Somogyi, A. A., Sahid, A., & Lintzeris, N. (2025). Characterizing withdrawal from long-acting injectable buprenorphine: An observational case series. *Drug and alcohol dependence reports*, 15, 100329. <https://doi.org/10.1016/j.dadr.2025.100329>

The annual report is distributed to a broad audience and serves as a platform to showcase the achievements and exceptional work done across all discipline at Metro North Mental Health. Featuring your work would not only enrich the report but it is also a great way to showcase your findings to a wider audience.

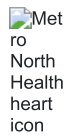

I have attached the 2024 report for your reference.

If you are open to this opportunity, we would be happy to discuss any requests, acknowledgements or other considerations you may have. We can draft the article on your behalf, or you are welcome to write it yourself. We will support whichever approach works best for you, but please respond with your preference if appropriate.

We will **not** publish this article or the associated images without your permission.

Thank you for your valuable contribution to mental health research, and we look forward to collaborating on this exciting opportunity.

Kind regards,

Kate Rennie
Support Officer
